Allowable Subject Matter

1. Claims 1-8 are allowable over the prior art of records.
2. The instant application is deemed to be directed to an unobvious improvement over the invention of Pat. No. 6,532,506. The improvement features include a method and device for an exchange of data in messages between at least two users connected by a bus system and having separate time bases but operating a same bus speed comprising ascertaining a correction from the first time information and the second time information; and causing at least second one of the two users to adapt as a function of the correction value at least one of the second time information and the time base of the second one of the two users, whereby the at least two users continue to operate at the same bus speed (claims 1, 8); and combining the reference message and subsequent ones of the timing windows up to a next reference message to form a first cycle of at least one of the specifiable length and a specifiable structure, wherein: the specifiable structure corresponds to the specifiable length, number, and time position of the timing windows in the specifiable time interval following the reference message (claim 3). The examiner agreed to allow the case after incorporating the above allowable features into the claims 1, 3, 8.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferable **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
